

MARCY TOOLS.

Buy your Caulking Tools Direct of the Manufacturer at Factory Prices.

Genuine MARCY Tools, of correct shape and “hang”, carefully tempered, well finished, and fully guaranteed.

Tools made for business, the kind YOU want, fully described in our Catalog No. 9, to which this Price List applies.

With the exception of our Handy Kit, which weighs fifteen pounds, these tools can be sent by parcel post at reasonable rates, and for your convenience we give below a list of prices covering delivery by parcel post.

Price Delivered by Parcel Post.

Plumber’s Handy Kit,	7.50	Not mailable—weight 15 pounds.							

PLEASE NOTE

The net factory prices are for tools f. o. b. factory, transportation charges by freight or express to be paid by purchaser.

The parcel post prices cover delivering by parcel post, but not insurance against loss through the mails. If insurance is desired, add .10¢ for each package of eleven pounds or less.

Remittance should accompany all orders, in the shape of cash, money order or certified check.

Orders received at net factory prices, without shipping instructions, will be forwarded by freight or express, whichever in our judgment is the best.

To avoid any misunderstanding in filling your order, please order by name of tool and catalog number.

If you want some special shape or size of tool not listed in our catalog, or a tool for some particular work, write us for price, giving full information regarding size, shape, etc.

Remember, distance makes no difference, for you run no risk whatever in buying our goods, as all our tools are strictly first-class, bearing our name and trade-mark, which we stand back of always.

Order to-day, while you think of it,—to-morrow never comes.

The Marcy Tool Works, Putnam, Conn., U.S.A.

Please hang up this List for future reference—and use it often.
